

Foresight Imaging Announces Availability of IDEA v3.3 Software

(Chelmsford, MA – March 3, 2011) Foresight Imaging announces the availability of their IDEA version 3.3 software. This is the latest version of their software development kit, drivers, and example programs supporting their AccuStream and AccuStream Express frame grabbers and video streamers. The IDEA (Imaging Development Environment for Applications) software includes an SDK for software engineers developing in C++, ActiveX controls, a Video for Windows driver, a WDM driver, a TWAIN driver, and extensive example programs. Also included is Foresight's Auto-SYNC software, an automatic configuration utility software application. Auto-SYNC automatically configures the Foresight Imaging frame grabber to the incoming video signal and builds a configuration file. This configuration file can then be used as created or can be easily modified or tweaked using the Auto-SYNC Wizard.

The IDEA v3.3 release includes the following new features and capabilities:

- Support for the new AccuStream Express HD+, AccuStream Express HD 75+, and AccuStream Express SD 50+
- Support for a real-time hardware video scalar/re-sizer for all AccuStream Express boards
- Windows 7 (32 & 64 bit) support
- StreamCap example program for recording to AVI2 format for greater than 4GB streaming video files
- WDM driver for all AccuStream Express boards
- UAC support

Availability

IDEA version 3.3 is available for download from the Foresight Imaging website at www.fi-llc.com.

About Foresight Imaging

Foresight Imaging is a world leader in the design and marketing of high accuracy, high performance video streamers, frame grabbers, and medical imaging systems for the multimedia, military, and medical imaging markets. For further information, visit www.fi-llc.com or email info@fi-llc.com.

Foresight Imaging is a registered trademark, and Auto-SYNC, IDEA, AccuStream, and AccuStream Express are trademarks of Foresight Imaging, LLC. All other products and brand names are trademarks or registered trademarks of their respective holders. All specifications are subject to change.
